

IMPORTANT ANNOUNCEMENT ON COFFEE PRICE ADJUSTMENT

February 12, 2025

Dear customers,

We want to transparently inform you about the current challenges facing the coffee industry, which directly influence our prices. The significant increase in the cost of coffee beans is due to harvest shortages caused by unfavorable weather conditions, as well as disruptions in the supply chain and a growing global demand. Furthermore, the costs of transportation, packaging, and production continue to rise.

We have made every effort to keep our prices as stable as possible, but given these widespread increases, we find ourselves compelled to slightly adjust our rates. This adjustment is essential to continue offering you the high-quality coffee you enjoy, without compromise.

We sincerely thank you for your understanding and ongoing support. We remain committed to providing you with the best possible coffee experience. Thank you for being an integral part of our story! ☕❤️

- The team at Brûlerie des Monts
